ABSEL

Power in Motion. Quality in Parts.

The extensive experience accumulated by ABSELGROUP through nearly 30 years in car-part and lubricant distribution business as well as the time-tested cooperation we have enjoyed with international manufacturers, served a solid ground that helped us to start the production of spares, lubricants and technical liquids branded ABSEL.

We strive to manufacture high-quality car parts that meet the OEM standards and respective manufacturers' requirements, at the same time remaining both available and affordable for car owners all over the world. Our ambitions rely on the quality we deliver through our parts just like we do through the way we cooperate with our partners!

ADVANTAGES

Quality Assurance

The quality of any ABSEL product is ensured through the entire production cycle – from raw stuff selection to parts stock storage conditions. All our production facilities have been certified according to the ISO 9001, ISO14001, ISO/IATF 16949 quality standards.

Range of Products

We offer all parts for professional repair and maintenance of any modern European, Asian and American cars.

We Solve Any Issue Arising

ABSEL products are designed to relieve any issue people may face once they start using a car. When opting to buy a part of our brand, you will not have to waste time choosing – we guarantee that any choice you make with us is safe.
